

Subprocessors — Dossierly

Yuzu Solutions Inc.

Privacy Officer: Adrien Yvin — info@dossierly.ca

Last updated: 17 August 2026

This list is for consulting firms completing a privacy impact assessment or vendor review.

Processor	Role	Where processing typically occurs	Optional?
Supabase (hosted on AWS)	Database, authentication, file storage	Canada Central — Montréal (ca-central-1)	Required
Vercel	Application hosting and logs	United States and global edge	Required for hosting
Vercel Web Analytics and Speed Insights	Usage and performance metrics	United States	Optional — off until the user consents
Resend	Transactional email (confirmations, reminders, manage links)	United States	When email sending is configured
Google	Staff Google sign-in, optional client portal Google sign-in, Calendar, Meet	United States	Staff or firm opt-in
Microsoft	Outlook Calendar, Teams	United States	Staff opt-in
Zoom	Meeting join links	United States	Staff opt-in
Square	Payments on priced bookings	United States	Firm opt-in

Primary records (database, auth, stored files) stay in Canada. Application compute, email, and connected calendars/meetings/payments may process personal information outside Québec, including the United States. Yuzu Solutions Inc. has assessed those communications under Law 25 s. 17. Firms that enable a calendar, meeting, or payment tool instruct us to send the related details to that provider.

Yuzu personnel who hold the platform wrap key can decrypt firm data in order to operate or restore the service.
